PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience building AI-powered and full-stack applications using MERN, React, TypeScript, Python, FastAPI, and PostgreSQL. Experienced in developing production APIs, AI-assisted applications, visualization platforms, and Generative AI integrations using Google Gemini. Strong foundation in Data Structures, Algorithms, OOP, DBMS, System Design and Agile software engineering. Passionate about building scalable AI products, backend systems and intelligent automation.

TECHNICAL SKILLS

- Languages: Java, JavaScript, Python
- Backend: FastAPI, Node.js, Express.js, REST APIs, Strapi, SQLAlchemy
- Frontend: React.js, TypeScript, Redux Toolkit, Vite, Tailwind CSS, Bootstrap, React
- Databases: PostgreSQL, MongoDB, Prisma, SQL
- Computer Vision: OpenCV, Shapely, NumPy, Pandas, Matplotlib
- AI / GenAI: Google Gemini API, Prompt Engineering, AI-assisted Applications, Machine Learning Fundamentals, NLP Fundamentals
- Cloud: Azure Blob Storage
- Testing: Playwright, Automated Testing, API Testing, Regression Testing, Cross-browser Testing
- Developer Tools: Git, GitHub, Postman, VS Code, Jupyter Notebook, Google Colab, Claude Code Agents
- Core CS: DSA, OOP, DBMS, Operating Systems, Computer Networks, SDLC, Agile, System Design

Non - Technical Skills: Google Autocrat (Docs Automation), Public Relations, Social Media Management, Digital Marketing, Graphics Designing, JIRA, Notion.

WORK EXPERIENCE

Full Stack Web Developer Intern — AskGalore, Bhopal Feb 2026 – Present

- Demo to the production sites : <https://sublimehouseoftea.com/>, <https://machineavatars.com/>, <https://visualizer.heethr.com/>
- Sublime - Engineered and maintained backend features for a production e-commerce platform using Strapi (headless CMS) and TypeScript, directly supporting live customer-facing operations. Designed scalable RESTful APIs following OOP and DBMS best practices, reducing endpoint complexity and improving backend maintainability across modules.
- Heethr - Worked on Heethr Snow Melt Layout Visualizer, a Canada-based full-stack application for visualizing snow melting cable layouts. Validated React frontend and FastAPI backend workflows including API testing, PostgreSQL models, SQLAlchemy, OpenCV and geometric calculations using Shapely. Assisted in Google Gemini AI integration and validation of AI-powered workflows.
- MachineAvatars - Contributed to Machine Avatars, an AI-powered website assistant that understands website content and provides contextual responses using configurable prompts and guardrails. Redesigned UI/UX for key user flows, improving interface consistency and usability across inspection, submission, and approval modules. Created automated end-to-end testing workflows using Playwright for critical application scenarios.
- Identified and resolved critical bugs across multiple production websites, preventing potential revenue-impacting downtime.
- Collaborated with cross-functional teams (design, product, QA) in Agile sprints, consistently delivering features within planned sprint cycles.

Data Manager (Freelance) — Thomas Cook India · National Games, Goa Oct – Nov 2023

- Structured and managed accommodation data for 15,000+ event participants, ensuring zero allocation conflicts during a large-scale national event.
- Optimized hotel allocation logic, eliminating redundant bookings and reducing operational overhead across multiple venue sites.

Web Developer — Agile Startup (Early-Stage Team), Bhopal Dec 2022 – Feb 2023

- Built pixel-accurate responsive UIs in React.js + TailwindCSS by converting Figma designs into functional web interfaces, achieving full design-to-code fidelity.
- Contributed to bug triage, feature development, and UI enhancements in an Agile team setting during the product's initial launch phase.

PROJECTS

ZeroBite – Food Waste Management and Redistribution Platform | React, Node.js, Prisma, PostgreSQL | [GITHUB](#) [REPO](#)

- Developed a full-stack platform connecting food donors with NGOs and recipients, enabling real-time food surplus coordination.
- Integrated recipe suggestions to help recipients utilize food donations effectively, adding a personalized engagement layer.
- Optimized PostgreSQL queries via Prisma ORM, improving average API response time by ~25% under load.

SafeFlame – Fire Monitoring & NOC Automation System | MongoDB, Express.js, React.js, Node.js | [GITHUB](#) [REPO](#)

- Built a full-stack MERN application replacing manual, paper-based fire NOC processes with a digitized inspection tracking system, reducing processing friction significantly.
- Integrated an chatbot for automated query resolution, reducing manual support interactions by ~40%
- Redesigned UI/UX for key user flows, improving interface consistency and usability across inspection, submission, and approval modules.

Sugarcane Production Analysis – Exploratory Data Analysis | Python, Pandas, Matplotlib | [GITHUB](#) [REPO](#)

- Performed end-to-end EDA on agricultural datasets, extracting actionable insights on yield trends, regional land usage, and production efficiency.
- Produced clear visual to communicate data-driven findings, demonstrating applied skills in data analysis and visualization.

EDUCATION

•B.Tech – Computer Science and Business Systems GPA: 8.49 / 10

School of Information Technology, RGPV, Bhopal · Oct 2022 – May 2026

Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, OOP, Computer Networks, System Design, Software Engineering.

•Higher Secondary (Class 12th) - KRB School, Kareli | **93.8% | 2021-22**

•Secondary(Class 10th) - PDS School, Kareli | **90.2% | 2019-20**

ACHIEVEMENTS & LEADERSHIP

- Prayatna 2.0 Hackathon — Top 50 out of 1,400+ participants (national-level competition)
- Kriyeta 4.0 Hackathon — Top 30 out of 700+ participants
- LeetCode: Active programmer — leetcode.com/u/Khushi_nema_ | Also active on CodeChef & GeeksforGeeks
- Head – PR & Operations, Entrepreneurship Cell (E-Cell), RGPV (Dec 2022 – Present): Led 10-member team, grew LinkedIn reach by ~25% via targeted campaigns, and organized large-scale events with industry speakers and sponsors.
